The Buyer acknowledges that any decision to place a bid or purchase a Horse is made entirely at the Buyer's own discretion, risk, and satisfaction.

Pre-Purchase Veterinary Examination (Vetting) Clause

The Buyer shall be entitled, at the Buyer's own cost and responsibility, to arrange a pre-purchase veterinary examination of the Horse at the premises where the Horse is currently stabled, provided that such examination is conducted no later than two (2) days prior to the commencement of the auction.

The purpose of a pre-purchase veterinary examination is to assist the prospective Buyer in assessing whether the Horse is suitable for the Buyer's intended use, discipline, requirements, and expectations.

The Buyer acknowledges that veterinary findings, opinions, and recommendations may vary between veterinarians and are based on the independent professional judgement of the attending veterinarian at the time of examination.

A Horse failing or not meeting the requirements of a veterinary examination for a particular Buyer's intended purpose shall not constitute misrepresentation, defect, or wrongdoing on the part of the Seller, nor shall it prevent other prospective Buyers from bidding on or purchasing the Horse.

5.17.5 Disputes Arising from Vetting

In the event of any dispute, disagreement, or differing opinion relating to veterinary findings or assessments, the parties may mutually agree to obtain a second opinion from an independent qualified veterinarian.

27. Auction Extension Rule (Anti-Sniping Rule)

27.1 Purpose

The Auction Extension Rule is implemented to promote a fair, transparent, and competitive bidding environment by preventing last-minute bids from unfairly determining the outcome of an auction. The rule is intended to provide all interested bidders with a reasonable opportunity to respond to late bidding activity before the auction closes.

27.2 Automatic Auction Extension

If a bid is placed within the final minutes of an auction, the auction closing time will automatically be extended. Each qualifying bid submitted during the final extension period will result in the auction being extended by an additional predetermined time from the moment the bid is successfully received and recorded on the platform. This process will continue until no further

qualifying bids are placed within the applicable extension period, at which point the auction will close automatically.

Example:

If the extension period is 2 minutes, and a bid is placed with 30 seconds remaining, the auction timer will reset to 2 minutes.

27.3 Continuous Bidding

The auction will continue to extend automatically each time a new qualifying bid is placed within the applicable extension period. The auction will only officially close once the full extension period has expired without any additional qualifying bids being submitted. This process is intended to ensure all bidders have a fair and equal opportunity to participate before the auction concludes.

27.4 Final Bid

The highest valid bid recorded at the conclusion of the final extension period will be declared the winning bid, provided that any applicable reserve price has been met or exceeded. If the reserve price has not been met, Buy That Horse reserves the right to conclude the auction without a sale or to negotiate further in accordance with the platform's policies and applicable terms and conditions.

27.5 Technical Issues

If technical issues occur during the closing period of an auction that may affect fair bidding, Buy That Horse reserves the right to extend the auction closing time, pause the auction, or restart the auction where necessary. These actions may be taken at the sole discretion of Buy That Horse to protect the integrity of the auction process and to ensure fairness for all bidders participating on the platform.

27.6 Platform Discretion

Buy That Horse reserves the right to modify the auction closing time or extension period where necessary to maintain the integrity of the auction process.

27.7 Verifying the Correct Lot No.

It is the sole responsibility of the bidder to ensure that the correct lot, horse, item, or auction listing has been selected prior to submitting a bid. Any bid submitted on the Buy That Horse platform constitutes a final, legally binding offer to purchase and may not be withdrawn, cancelled, reversed, or deleted due to bidder error, oversight, misunderstanding, accidental selection, or any other mistake made by the bidder.

27.8 Acceptance

By registering for or participating in auctions on the Buy That Horse platform, bidders acknowledge, accept, and agree to be bound by the Auction Extension Rule and understand that auction closing times may be automatically extended in accordance with the platform's auction procedures and terms and conditions.

28. Know Your Customer (KYC) Verification Policy

28.1 Purpose of KYC Verification

Buy That Horse reserves the right to implement Know Your Customer (KYC) verification procedures in order to prevent fraud and identity theft, protect buyers and sellers using the platform, maintain the integrity and security of the auction process, and comply with all applicable South African laws, regulations, and compliance requirements.

28.2 Verification Requirements

Buy That Horse may require users to complete identity verification procedures before participating in auctions, listing horses or items, placing bids, or completing transactions on the platform. Verification requirements may include the submission of a certified valid identification document, including a South African identity document or passport, contact information verification,

proof of residential address, payment method verification supported by an official letter from the bank bearing the bank's stamp, and any additional documentation reasonably required by Buy That Horse to verify a user's identity, payment details, or legitimacy of participation on the platform.

Buy That Horse reserves the right to request additional verification information or supporting documentation at any time, including before, during, or after registration, bidding, listing, payment processing, or completion of a transaction, where such verification is considered necessary for security, compliance, fraud prevention, risk management, or platform integrity purposes.

28.4 Failure to Complete Verification

If a user fails, refuses, or is unable to complete any required verification procedures or provide requested documentation within the timeframe determined by Buy That Horse, the platform reserves the right to restrict or suspend the user's account, prevent the user from participating in auctions or transactions, cancel bids, listings, or transactions, and withhold access to certain platform features or services until such verification requirements have been satisfactorily completed.

28.5 Use and Protection of Verification Information

All information and documentation collected for Know Your Customer (KYC) and verification purposes will be processed, stored, and handled in accordance with the Protection of Personal Information Act, 2013 (POPIA), together with the Buy That Horse Privacy Policy and any other applicable South African data protection laws.

Personal information obtained through the verification process will be used solely for identity verification, fraud prevention, security, risk management, regulatory compliance, and any other lawful purpose reasonably related to the operation and protection of the Buy That Horse platform.

28.6 Fraudulent or False Information

Providing false, misleading, inaccurate, forged, or fraudulent information or documentation during the verification process is strictly prohibited and constitutes a material breach of the Buy That Horse platform rules, policies, and terms and conditions. Where such conduct is identified or reasonably suspected, Buy That Horse reserves the right to terminate or suspend the user's account, cancel any bids, listings, auctions, or transactions associated with the user, report the matter to the appropriate law enforcement authorities or regulatory bodies, and take any further legal action deemed necessary to protect the platform, its users, and its business interests.
